

AUTOMOTIVE FLUID TEST KIT

Includes quantitative laboratory analysis and interpretative report

DIRECTIONS

1. Use the enclosed, gloves and pipette to collect a representative automotive fluid sample for analysis.
Note: a representative sample may include multiple phases, layers and settled solid particulates and residues.
2. Replace the cap and ensure that the vial does not leak. Wipe away any excess sample. Place vial in sealable bag.
3. Complete the form below. *A signature is required for analysis.*
4. Adhesive metallic tape is provided to prevent tampering by placing over the shipping tube/cap interface.
5. Mail to Absolute Laboratories. If results are time-sensitive, consider shipping with UPS.

NOTE: Use UPS ground to ship flammable fuel (i.e. gasoline only) and include "CONFORMS 49 CFR 173.4 DOMESTIC HWY/RAIL" on the shipping label. Ship from a UPS terminal instead of a UPS store.

REPORTING INFORMATION

Company: _____ Department: _____

Contact/Adjuster: _____ Phone: _____

Email(s) for results: _____

Claim file email (if applicable): _____

SERVICE REQUESTOR - Same as above

Name and company: _____

BILLING INFORMATION - Same as above

Contact: _____ Email: _____ Phone: _____

SAMPLING INFORMATION

Claim/case no.: _____

Vehicle year, make, and model: _____ Last six of the V.I.N.: _____

Date sampled: _____ Obtained by: _____ Phone: _____

SAMPLE DESCRIPTION

Sample source (e.g. gas tank, brake line, oil filter, etc.): _____

What type of fuel is recommended for this engine?: _____

Comments/test requested: _____

EVIDENCE TRANSFER RECORD

Relinquished by (signature*):  _____ Date: _____ Time: _____

Received by: _____ Date: _____ Time: _____
